

**PRESS RELEASE, March 28, 2017**

**The Project "ILYINSKY HOSPITAL" has got a strategic investor.**

**Clinic Management Group – the company that manages "ILYINSKY HOSPITAL" project - and investment company EMDEU GROUP (Kazakhstan) - specializing in the area of healthcare - have announced reaching the basic agreement on terms and conditions of the transaction on acquiring 50% of the "ILYINSKY HOSPITAL" Project by the EMDEU GROUP.**

"ILYINSKY HOSPITAL" – is a Project of creating several multifunctional high-tech medical centers located in the vicinity of Moscow in Krasnogorsk district, close to the town of Ilyinsky.

"ILYINSKY HOSPITAL" project is comprised of three stages:

- a) **first stage:** integrated hospital with outpatient and inpatient facilities with the capacity of 78 beds, an operating block and intensive care unit, pediatric department, diagnostic center, emergency department, interventional radiology, clinic of family medicine, nursing services, medical hotel, rehabilitation and recreation center, clinical and diagnostic laboratory, house call service and ambulance service;
- b) **second stage:** high-tech center combining the cardiovascular clinic, neuro-neurological center, the radiotherapy center and PET-diagnostics;
- c) **third stage:** multifunctional children's hospital.

The first phase of the project has hit its final stage. The opening of the first building of "ILYINSKY HOSPITAL" is planned for the 1st quarter of 2018.

The "ILYINSKY HOSPITAL" project encompasses all the key areas of medicine, including oncology, pediatrics, cardiovascular surgery and neurosurgery, orthopedics and traumatology, gynecology and urology, restorative medicine. When planning the project, the founders focused on the development of primary care within the family medicine center as well as on nursing services and emergency care. The total bed capacity of the "ILYINSKY HOSPITAL" complex will be over 140 beds. The approximate area of the centers is 34 thousand sq. m. The investment for the first two stages of the project are estimated to be 120 million \$. The parties expect to close the transaction on acquisition of 50% of the "ILYINSKY HOSPITAL" Project by the EMDEU GROUP in early May of this year.

The founders of the project are **Abay Zakaryanov** and **Maxim Savelyev**. Project Manager is **Artem Gapeev**, in the recent past - the General Director of the European Medical Center (EMC). Chief physician of the project – is a prominent Russian surgeon, urologist-andrologist, Dr **Aleksey Zhivov**.
